

Wonders of Nature **BUTTERFLY FESTIVAL**

Wed. May 2, 2012

6:30 pm to 9:30 pm

Albert McCormick Community Centre
500 Parkside Drive, Waterloo

Presenters

7:00 pm - 8:30 pm

Master of Ceremonies
David Hobson, Gardening Columnist

Don Davis - Citizen Scientist - 'Adventures with the Monarch Butterfly'

Don has been studying and tagging Monarch Butterflies since 1968. He will be describing some of his many experiences in Canada and abroad with this amazing insect, as well as focusing on major conservation issues and opportunities for participation in citizen science projects currently underway.

Larry Lamb - 'Butterflies of Waterloo Region'

Retired from the Environmental Studies Faculty of the University of Waterloo, Larry will present a brief visual presentation of the most common butterflies in our region.

Anne Morgan - Master Gardener - 'Gardening for Butterflies'

No matter how small your garden, it is always possible to grow some plants to attract butterflies and other pollinators. This illustrated talk will cover the best and easiest plants to grow to attract butterflies to your garden at all stages of their life history.
