

Public consultation

Proposed Drinking Water Source Protection Plan for the Grand River watershed

You are invited to read and comment on the Proposed Drinking Water Source Protection Plan for the Grand River watershed. The goal of the plan is to protect the sources of municipal drinking water.

The Proposed Plan was prepared under the *Ontario Clean Water Act* for the Lake Erie Region Source Protection Committee.

The Proposed Plan includes changes made to the Draft version that was subject to public consultation in September. Following the current consultation period, the Proposed Source Protection Plan will be submitted to the Ministry of the Environment for approval.

The Proposed Source Protection Plan:

- identifies vulnerable areas where drinking water sources face a risk of contamination,
- identifies significant threats to drinking water sources, and
- outlines policies and programs to reduce the risk posed by significant threats, and to prevent new ones from developing.

Drinking water systems

The plan covers these drinking water systems:

City of Brantford
