I respectfully request these answer in writing please to be mailed to my address above.

1. How many tracts of land does the Line 3 Replacement Program OH-002-2015 impact?

**2. Regarding Hydro owned properties in Manitoba, Saskatchewan And Alberta.**

- a) What percentage of the pipeline is on lands owned by the Hydro companies?
- b) What percentage of the Engineered Drawings are completed for Hydro companies in regards to this project?
- c) How much of the AC Mitigation Reports are completed?
- d) How much of the mandatory Geotechnical reports for Hydro companies are completed?
- e) What percentage of the engineering reports must be completed before the application for license is submitted with Hydro companies?

**3. Regarding Municipal Licensing**

- a) What percentage of the routes are bound to Municipal owned properties?
- b) What municipalities own tracts along the route and how many tracts per municipality?
- c) What percentage of the Geotechnical reports are completed for each municipality?
- d) What percentage of the Engineered Drawings are completed for each municipality regarding this project?
- e) What percentage of the engineering drawings must be completed before the application for license is submitted with Municipalities?

**4. Regarding Ministry of Transportation (MTO) Licensing**

- a) What percentage of the routes are bound to MTO lands?
- b) How many tracts do they own along the route? ?
- c) What percentage of the Right of Way reports for MTO have been completed?
- d) What percentage of the Engineering reports fo MTO are completed?
- e) What percentage of the engineering reports must be completed before the application for license is submitted with the MTO?

**5. Regarding First Nations Accommodation**

- a) What percentage of the routes are bound to Treaty areas of Indigenous People?
- b) Which Indigenous groups own tracts along the route and how many does each group own?
- c) What percentage of the engineering reports must be completed to accommodate First Nation's consultations?
- d) What percentage of the work has been done regarding Traditional Land Uses?

11/25/16

- e) What percentage of the work has been done to identify Archaeological Resources?
- f) Will there be Indigenous monitoring in regards to Archaeological resources, construction and ongoing monitoring?

#### **6. Regarding Wetlands**

- a) Are their wetland areas that will be impacted by this project? If so how many?
- b) Will there be restoration plans implemented for wetland areas?
- c) Will there be any measures used to address invasive species such as phragmites? If so what measures will be used?
- d) How long will post development monitoring take place to assure restoration of natural areas?
- e) If natural areas are not restored within the projected monitoring time, will Enbridge work beyond that time line to assure restoration of areas?
- f) Will critical habitat mapping be required in regards to this project?
- g) Will Critical habitat mapping be part of the requirement for the licensing of either Crown (Hydro, MTO) or Municipal properties?

#### **7. Regarding Major Water Crossings**

- a) How many major water ways are there along the Line 3 currently?
- b) How many major water ways have shut off valves on each side of the river within 1km of the water's edge?
- c) Are the valves going to be manual or automated?

What percentage of the total engineering reports are completed to date in regards to this project?

Thank you kindly for your time.

Louisette Lanteigne
