

# ONTARIO IS NOT FOR SALE

You're invited! Please join us on **Saturday, June 8th** for a day of learning and organizing to stop the attacks on Ontario's environment. We're bringing together community groups, NGOs, and activists from all across the province to build a movement that can respond to the regressive environmental agenda of the Ontario government.

The event will take place at the **Bricker Academic Building, Wilfrid Laurier University in Waterloo** starting at **9:30 a.m.** Breakfast, lunch, and a networking reception with refreshments and snacks at the end of the day will be provided, and **parking is free** on campus! **Tickets are \$40** and can be purchased online at <https://act.environmentaldefence.ca/page/42479/event/1>

Our day will kick off with a panel featuring special guests **Dianne Saxe**, the former Environmental Commissioner of Ontario, **Mayor Rob Burton** of Oakville, **Theresa McClenaghan**, Executive Director and Counsel of the Canadian Environmental Law Association, and **Tim Gray**, Executive Director of Environmental Defence. They will discuss the changing political environment in Ontario, and what that means for the environmental movement.

The panel will be followed by a series of sessions aimed at identifying best practices and areas for collaboration, and building a strategy for tying all the work that we do together in one movement. Below you will find the agenda, and if you have any further questions please contact [kalkerton@environmentaldefence.ca](mailto:kalkerton@environmentaldefence.ca)
